[a] The figures for 1841, as published in *Gazette*, are full of errors which cannot now be corrected, and should therefore be used with great caution.

[b] The figures (Persons) for 1847 include 2246 military, women, and children; also 3739 male convicts on public works.

[c] „ „ 1851 „ 9 „ „ „ „ 568 convicts, sex not distinguished.

[d] „ „ 1857 „ 630 „ „ „

[e] The discrepancy in the number of brick and stone houses in 1870 and 1881 arises from a large number of residents in country districts failing to give definite descriptions.

[a] In this table deaths occurring in the Public Hospitals in Hobart and Launceston are referred to the district in which the cause of death originated. [b] This District embraces the New Town Charitable Institution, in which aged persons from all parts of the State are assembled. [c] Deaths occurring at sea or on board foreign ships in port have not been included. [d] Preventable causes embrace deaths at all ages from all causes excepting those classified as due to "Senility" or "Old Age." [e] Corrected for changes in age-distribution. [f] Indicates deaths under 1 year per 1000 births. [g] Computed in accordance with the recommendation of the Conference of Statisticians at Hobart, January, 1902, viz.—That the Age-groups be—Under 1 year, 1 to 20 years, 20 to 40 years, 40 to 60 years, 60 years and over; and that the Population of Sweden (Census 1890) be taken as the Standard. [h] The detailed rates for these divisions are omitted, as the fluctuations between single years when numbers are small give unsatisfactory results.

* Including £11,010 for carriage of mails for latest year. † There has been no increase in the rates for the carriage of goods or minerals, The apparent increase is caused by the closing of the Zeehan Smelters, to which thousands of tons of ore had been conveyed from a five-mile radius at 10d. per ton.

REPORT OF THE STATISTICIAN FOR THE YEAR 1916.

General Register Office,
Hobart, 24th September, 1917.

SIR,

IN accordance with the provisions of "The Friendly Societies Act, 1888," I have the honour to furnish the following Report with respect to the year 1916:—

MODEL FORMS OF ACCOUNTS AND CIRCULATION OF INFORMATION.

The usual tables disclosing the operations and state of the finances of each district and branch society which furnished returns to this office for the previous year were duly published and distributed on application.

The usual difficulties with some societies still continue as regards the lack of promptitude in forwarding returns. I am glad to say, however, that about 190 adult societies have furnished complete statements for the current year, all of which have been carefully examined and corrected where necessary.

The following is a summary of the more important particulars relating to membership, experience, and finances of the friendly societies, as a whole, for the years 1915 and 1916.

* Increases from this date are largely caused by unusual special levies in some of the Societies.

Provision for Unemployed Sick Members.

Those who were disabled for work during 1916 absorbed £19,620, or 23·21 per cent. of total expenditure in respect of sick maintenance alone; £17,525, or 20·74 per cent., was absorbed in medical expenses; £30,843, or 36·50 per cent., was absorbed in distress allowances, widows' and orphans' support, and other provisions, together with the expenses of management; while £16,522, or 19·55 per cent., was absorbed as the annual disbursement in connection with funeral allowances in respect of deceased members or their wives. Compared with last year the funeral allowances show an increase of 23·81 per cent.

These disbursements clearly distinguish the nature of the provisions of friendly societies from those of life assurance societies. In the latter the provisional benefit is almost wholly composed of an accumulated sum of money for the benefit of the insurer's family at his or her death. In the former the bulk of the benefits, such as sick pay, medical attendance, medicines, and distress allowances are received during the life of a member, while on the average only about 16 per cent. of total expenditure is absorbed by death payments (funeral expenses, &c.), corresponding to the main objects of ordinary life assurance societies.

This year the expenditure under the heading "Other Benefits" is unusually large owing to the sum of £8774, or £8149 more than on the previous year, having been expended in connection with payment of premiums for the Insurance of Members serving in the Expeditionary Forces. One of the Societies (Druids), also, has recently adopted the practice of paying a Maternity Bonus on the birth of each child born of its registered wives, and this somewhat expands the amount shown under the item.

Expenditure and receipts under the item "Medical Attendance and Medicines" continue to show a falling off. This is due, mainly, to the fact that the societies' unmarried members of the Expeditionary Forces are not contributing to, or receiving reward from, this benefit. Particulars with respect to Adults' Lodges are this year shown under males and females respectively; and those for Juveniles' Lodges are also set down separately.

The slight decrease in membership has been caused by the disinclination to initiate unmarried members of military age. Recent legislation in the shape of "The Aid to Friendly Societies Act," which is of substantial benefit to the organisations, should, however, neutralise that disinclination.

The present capital of the various societies (average of three years, £245,746), gives an inadequate conception of their financial importance, as this capital sum only relates to benefits accruing at death, while the bulk of benefits in relation to annual contributions are discharged annually, and therefore do not enter into capital invested for the discharge of obligations consequent upon death.

A statistical summary, showing since 1892, varied particulars with respect to friendly societies' transactions has this year been attached to the report.

Assessmentism and Limitation of Funeral Benefits.

Mr. Barry, Government Actuary of Victoria and Tasmania, after examining the conditions of the various friendly societies in Tasmania during the year 1911, stated that he was decidedly of opinion that no funeral benefits should exceed the limit of £20, as now adopted and fixed by law in Victoria, and he therefore recommended that the Tasmanian Act should be amended to prohibit societies from carrying on Life Assurance operations.

He further deprecated the practice of certain societies in Tasmania of imposing a levy on the death of a member.

As pointed out in my report on Friendly Societies for the year 1911, I am entirely in accord with Mr. Barry in his view in reference to this matter; and I regret to have to report that no steps have yet been taken to deal with the subject.

I have the honour to be,
Sir,
Your obedient Servant,
R. M. JOHNSTON,
Registrar-General and Government Statistician.

The Hon. the Attorney-General.

†"CONSUMABLE WEALTH."—The annual value of Consumable Wealth produced in Tasmania during the year 1913-14—by the combined agency of local labour, skill, and all other animate and inanimate auxiliary instruments of productive physical energy—is estimated to approximate to £8,750,000. This is equivalent to £106 per annum per breadwinner [includes capitalists, entrepreneurs, and wage-earners]. At 3½ per cent. this annual contribution of Consumable Wealth represents an absolute present capital value of £250,000,000. It is estimated that about one-seventh of the annual value is absorbed in the maintenance, renewal, and fresh creation of the necessary auxiliary tools and instruments of production and transport. The remaining six-sevenths are absorbed by breadwinners and their dependents, representing a sum of £7,196,243, or 5s. 9¾d. per breadwinner per working day. From an economist's point of view each breadwinner may be rightly regarded as one of the most essential instruments of production. If therefore we regard £92, as being the average annual effective claim of each breadwinner unit, it follows that each of the latter possesses an asset which, calculated at 3½ per cent., represents a capital value of £2628. ‖ Estimated. § Production (Exports not available). ** Up to year 1901 the revenue of State Departments, since transferred to Commonwealth, was included. *** Including (latest year £2,342,623) value of material used or worked up.
